GERMAN CRUISER ROSHED TO MEXICO

BULLETINS.

PARIS, Oct. 27.—The French government has requested the United States to send warships to Lower California to protect French citizens there from Mexican outrages.

WASHINGTON, Oct. 27.—The embassy at Mexico City reports that Monterey has fallen before the rebels.

BERLIN, Oct. 27.—The German protected cruiser Nuernberg, called today from Yokohama for Mazatlan, on the western coast of Mexico. The German cruiser Berlin is enroute for Vera Cruz to relieve the Hertha.

MEXICO CITY, Oct. 27.—President Huerta rushed 20,000 troops into this city today, fearing an outbreak of the revolution.

Yesterday's election was "no election," as a candidate received a majority for the presidency, and the vote cast was far below the total legally required.

Huerta's rule as dictator is strengthening, as he continues in office, and the few Congress will be controlled by his policies.

Meanwhile the rebels in the north have renewed their attack on Monterrey.

President Huerta has announced the purpose of coming here today from Vera Cruz. Huerta regards this as his most dangerous enemy.

In the return that have been received from Mr. Frederick (Gibson), former Minister of Foreign Affairs, and that are running a close race, but because of the vote cast for other candidates neither one of these men will have a majority.

The number of votes cast is also less than one-third of the total voting strength of the republic, which is required by the constitution to make an election legal.

Huerta Rules Congress.
Electors of Senators and Deputies, however, have not been summoned by this constitutional provision, and it is certain that the Catholic party, headed by Gonzalez and supported by Huerta, will have control in the next Congress. This is the Huerta full control.

That Huerta had no doubt that the election would fall was borne out by the results increasing the strength of the Mexican Army from 80,000 to 150,000. That he should increase the army to almost double its present size when the country was made lawless by the revolution is a fact.

ATTACK ON THAW INDEMNITY France Demands U. S. Warships for Mexico

U. S. War Fleet Now Steaming For Europe

The United States battle fleet, under Admiral Bagley, is steaming under full steam toward European waters, as originally planned, according to wireless dispatches received here today.

At 10 o'clock a long drill in fire control, gun pointing exercises and battle maneuvering was held to enable the auxiliaries, the solars, Cyclops, Jason and Oriskany, to catch up and take their regular positions in the fleet. These auxiliaries will cross the Atlantic with the battle ships.

On arriving in European waters the fleet will disperse, according to sealed orders, as follows: Wyoming, flagship, to Malta; Arkansas and Florida, to Naples; Utah, Delaware and Solars, to Villefrance; Ohio, Vermont and Oriskany, to Marville; and the Kansas, Connecticut and Jason to Genoa.

Levy Is Dead After Record Poison Fight

Brooklyn Manufacturer Swallowed Mercury by Mistake.

NEW YORK, Oct. 27.—Isaac Levy, the wealthy Brooklyn manufacturer, who took thirty grains of bichloride of mercury eight days ago by mistake for headache powder, died at noon today.

His brave fight for life breaks all medical records for the period of survival after such a deadly dose of poison.

Only the iron will of Mr. Levy kept him alive as long as he was attending physicians' medical Saturday, but the patient would not live twelve hours longer.

Mr. Levy was conscious just before his death. He held the hand of his wife, Rachel, who was sitting by his bed, he said it and said:

"I guess this is the end; I feel that death is very near."

Walsh Contributes \$1,000 to Campaign

Lieutenant Governor Walsh filed his statement of campaign expenditures, due last Thursday. He explained:

"I had in my pocket and forgot to file it. Mr. Walsh said nothing and promised nothing in the future for the nomination. He has contributed \$1,000 to the Democratic State campaign."

Predicts Million Divorces in Decade

BALTIMORE, Oct. 27.—The prediction that within ten years there would be at least 1,000,000 divorces in this country, was made today by Rev. Stephen Lewis of Norfolk Lake, N. J.

ELLIOTT REPLIES ON 'EXPENSES'

Chairman Howard Elliott of the New Haven Railroad system this afternoon filed with the Public Service Commission his reply to the commission's request for all the facts in regard to the road's "underground fund."

With the answer were filed vouchers and a letter. It was announced that the answer revealed the names of all who had received portions of the "underground fund."

The answer from the railroad had come in response to a State-wide demand for full publicity for the "underground fund." In its original report the New Haven covered payments to its selective newspaper reporters, lobbyists and others for the period from December 1, 1912, to June 30, 1912. These payments were under the general heading of "other expenses."

An immediate demand was made for all the facts as to the amount of the payments, to whom they were paid and for what purpose.

Urges Government Take Wire Lines

WASHINGTON, Oct. 27.—Representative La Follette of Oregon today introduced a bill providing for government ownership and operation under the postoffice of telegraph and telephone lines. The bill also provides a consolidation of eleven companies, to control of the postmaster general, the seven members of the Interstate Commerce Commission and three other members representing the owners, to appraise and condemn the lines.

Mary Garden and 'Mariette' Are Home

NEW YORK, Oct. 27.—Mary Garden, the actress, arrived here today from Europe bringing with her a miniature Reichen dog no bigger than a kitten, and a heavy walking stick.

"I'm nearly dead," sighed Miss Garden. "I had to feed Mariette the dog every 40 minutes all the way across and here she's healthy as a pig." Miss Garden said she was going to Philadelphia in a few days to stay in "Tomb."

Mrs. Dike Now Great Great-Grandmother

REPLAND, Vt., Oct. 27.—Mrs. Sarah A. Dike of Pittsford, who was 100 years old last May, has received word from a great-granddaughter in Arizona announcing the birth of a daughter. Mrs. Dike is now a great-great-grandmother.

"American Readers for American Advertising."

This suggestion is bearing fruit in many fields. For one thing, it is a precious help in home-finding.

American readers who make themselves known as such find dwelling-places that suit them as if made to order by calling on progressive renting agents who advertise Apartments to Let in the Evening and Sunday American.

Some of the readers who made such calls yesterday discovered that particular apartments they had in mind had been spoken for.

But they were not sent away disappointed, for these alert and trustworthy renting agents had other apartments as desirable in every way to discriminating tenants.

Thus do American advertisers exert themselves, with energy and success, to please those whom they know to be American readers.

JEROME'S CHARGE 'ILLEGAL'

CONCORD, N. H., Oct. 27.—Before Hon. Thayer and his attorneys left here to prosecute today to attend the hearing before Governor Parker on the question of postponing the extradition of Jerome, word came from New York that Thayer's counsel had moved to quash the indictment against him.

The move was a complete surprise to the New York authorities and a delay was asked till Thursday—which was granted.

The application for bail will not be presented, it is understood, as to do so would be to give an admission that the indictment is legal. Thayer now contends that the indictment is null and void on these grounds:

1.—As Jerome was never in New York county during the period of the alleged conspiracy. He could not have committed the offense in New York county.

If the indictment is quashed as asked, it would make extradition practically out of the question. The Thayer lawyers will take a strong fight on this point. At Jersey General Cemetery of New York will be represented at the hearing Thayer's counsel.

Ask More Time for "Dakota Dan"

Attorney W. R. Richardson, who represented Dakota Dan Russell at the last East Cambridge identity hearing, announced today that he will ask the Superior Court to extend the time allowed for filing exceptions to the finding of Master Gilbert A. Perry.

Master Perry's decision is to be filed tomorrow. It is expected to find that Dakota Dan is an impostor and that Fresno is the real Dan.

ADMIRAL'S WIDOW AS BRIDE AND PRISONER

Above, a picture of Mrs. Eaton when she married the man she is now accused of poisoning. Below, her picture as she appears today, on trial for her life before a Plymouth County jury.

"MARRIED ADMIRAL TO SAVE HIS LIFE," DECLARES WIDOW

Mrs. Jennie May Harrison Eaton told her jury for months she lived in constant fear that Admiral Eaton would poison her, when she was cross-examined today by District Attorney Barker in the Plymouth court. She is a witness in her own defense at her trial on a charge of poisoning the admiral with arsenic.

"Did you believe you were being poisoned by the admiral?" Mr. Barker asked. Mrs. Eaton replied:

"Yes. He didn't realize what he was doing while under the influence of drugs."

FOUND MARKS AND BRUISES ON HER BODY.

Mrs. Eaton answered Barker, "I would."

Mr. Barker wanted a proof at her. "Would you say that he was too drunk to go?" Mrs. Eaton replied today. "I would."

Discuss Dorothy's Life.
Mr. Barker stopped back and without saying anything further and a nurse that looked like a telegram on the dock. Mr. Barker, Mrs. Eaton's counsel, asked quickly:

"Now, Mr. Barker, you had better tell me about this telegram." Mr. Judge Allen interrupted.

Most of the testimony this morning dealt with Dorothy's life. At one time Mr. Barker inquired into the question of her birth. He asked:

Q. Where is she born today? A.—It is about to be in Washington.

Q. Do you know, when it is? A.—I am positive in my own mind.

Q. Did you know there was a man who told that there was a child named A. N.?

Later Mrs. Eaton told of attempts to rape Dorothy's children.

Discussing Admiral Eaton's Background, District Attorney Barker asked:

Q. Did you know the admiral was told to go to the Philippines when he was in charge of the fleet? A.—I knew he had been in the Philippines.

Q. You mentioned him then to save his life? A.—Yes, I did.

Mr. Barker asked Mrs. Eaton to look like a telegram in his hand and demanded:

Mrs. Eaton, if I should show you a telegram saying that Admiral Eaton did attend his first wife's funeral, would you still say that he did not do so?

MAN OUT OF WORK LEAPS TO DEATH. NEW YORK, Oct. 27.—Dependent on lack of employment, Philip Sobolsky, a clothing salesman, leaped from the fourth story window of his home in Brooklyn today and died from his injuries.

IMPRISON TWO DIAZ SUPPORTERS. VERA CRUZ, Oct. 27.—Two close adherents of Felix Diaz were arrested here today and sent into prison. They are Leandro Nolasco and Perforo Reyes.

HOLD THREE ALLEGED FREIGHT THIEVES. United States Commissioner Moore today held Dominick Greco, John Hartley and David Lough, all of New York, on \$3,000 bonds for the Federal Grand jury on a charge of conspiring to steal freight from the New York Harbor.

BIG ODDS. An offer. The American classified ads can help you find that "good job" that you have been looking for. It's a sure thing, so, take the tip.

Another Big Sunday Gain

Yesterday's SALES of the Sunday American showed a tremendous increase over a week ago. The increases came from every section of the city and metropolitan district. It was a splendid clean-up.

And remember the Sunday American GUARANTEES to SELL every Sunday over 50,000 more copies than are sold by any other Boston Sunday Newspaper. And the SALES are

Growing! Growing! Growing!

CASSIDY TELLS OF JUDGES WHO ENFORCE LAW

Since Mr. Cassidy, through the Board of Health, brought several cases against some food dealers for selling bad food, there has been much discussion of the adequacy of the new law to regulate the sale of unwholesome food. He often a case today where, despite the inadequacy of the New Jersey law, an indifferent judge disposes of the case in some dishonorable fashion.

By HARRY P. CASSIDY.

As long as food dealers remain in business you will find that there are inadequate to punish them for selling inferior food.

In a recent case brought by the City Board of Health the case ended in a verdict in favor of the dealer.

I have always maintained that the best way to get laws is to bring prominent cases of the law to the public's attention. The next logical step is to frame such a law that the food dealer can't escape.

Alfred Wilson, the New York food investigator, recently exposed a wholesale traffic in rotten eggs between New York and Jersey City. Mr. Wilson found these rotten eggs were being used by taverns. He brought a prosecution against the dealer. New Jersey had a law to cover the sale of unwholesome food, but the penalty attached was entirely too small to fit the nature of the offense.

Dogers Were Convicted.

However, the dogers were convicted. Although the fines were small, the Federal Bureau got a wealth of information. And that's what counts. A food dealer will not sell a fine. But he stands pat.

The point I want to make is the attitude of Judge Charles F. X. O'Brien toward the food dealers. The first was convicted of selling rotten eggs for taking purposes, the second of selling rotten eggs for food purposes under the name of and egg yolk factory business. Just as selling rotten eggs is rotten everywhere, and the third of supplying rotten eggs to the other two.

Judge O'Brien, in imposing sentence, did not quote with the law. He said: "You have misled me to the shame of the State of New Jersey, convicted of a heinous crime against the Commonwealth."

"The attitude of the art made which you have been tried, dating as it does from 1890, when those who framed it never expected that human beings could develop to such depths as you have done. But you are due to not exceeding this." "The court is actually ashamed to impose such a fine. But I wish to inform you and your kind that I intend to make it my personal business, not only in the interests of the health of the community, but in my own selfish interest of self-protection, to frame an act that will punish offenders of your type with FROM THREE AND A HALF TO SEVEN YEARS IN JAIL. IF THIS TRIAL HAS DONE NOTHING ELSE IT HAS PROVED THAT THE LAWS OF NEW JERSEY COVERING FOOD CRIMES MUST BE REFORMED IMMEDIATELY."

Attitude is Refreshing.

Judge O'Brien's attitude is refreshing. It reminds me of another sterling upholder of the law's honor, Judge Barrett of Philadelphia.

In the latter part of 1910, Judge Barrett was called to the bar by George Kline of the New York City Police Department. Kline was the son of a well-known Brooklyn politician. Kline was a member of the New York Police Department, an extensive dealer in vice and crime.

"The attitude of this defendant," O'Brien said, "is refreshing. His business was too big, and he was too big a man to be bothered. His construction of the rotten egg act was too big a man to be bothered. He was on the corner with his little wife and his little son."

"I THINK THAT UNDER THE LAWS OF THIS STATE IT IS MY DUTY TO ENFORCE THE ACT AND IMPROVE THE ACT. I FINE YOU THAT AND BEFORE, NAMELY, THREE MONTHS IN THE COUNTY PRISON."

Judge Ferguson, another Philadelphia judge, gave a notorious offender a full sentence of three months.

There, I think, are judges who understand the nature of the American people. Would that there were more of their kind.

Sousa Pleases at Colonial Theatre

"March King" Presents Attractive Sunday Program.

At the Colonial Theatre Sunday evening, Sousa's orchestra introduced its band to selections largely different from those of the previous Sunday. The program was ably supported by the vocal soloists, Wagner, Blum and others in the classic vein. The "Sousa's Character Studies" and "Music to Forget" which were accompanied by the vocal soloists and the orchestra, in which the "March King" was represented by several soloists in the great organ of the large audience which filled the theatre.

Sousa's music is presented in a way to win popularity. The music and program make an interesting combination and the evening was greeted with the usual enthusiasm by his delighted audience.
